Objectives

Primary goal

The primary goal of this website is to construct an easy method for new and pre-existing consumers to find the information about Pleasant swimming. This goal will be achieved by constructing an easily navigable website with clear understandable language.

Secondary goal

The secondary goals of the website will be greatly improved user experience whilst using the site, and the ease of access while booking swimming slots. The other goals will be the improvement of customer knowledge of Pleasant Swimming, this will be completed by ensuring up to date opening times and any special events.

Long term goals

The long-term goal of Pleasant Swimming's website is to maintain interactions and bookings from pre-existing consumer, and also new interactions from new consumers. This goal can only be achieved by the continuous updating of the website with new information and updating of the websites style in the future to keep ahead of competitors.

How is success measured

The success of this website will be quantified by the website view count to the active participation of the website guests. This could be measured by when users join the leisure centre providing them with a questionnaire that asks how they heard of Pleasant Swimming. If there has been an increased volume of questionnaires that states they found Pleasant Swimming through the website, then the website has been clearly successful. Additionally, other forms of success can be measure by the volume of queries Pleasant Swimming receive via their email address, and the volume of class bookings through their online platforms.

If Pleasant Swimming notices a noticeable increase in booking or consumer engagement to their customer service team then the website can be deemed as a success.

Audience

Key user groups

The key user group for Pleasant Swimming's website is parents, they will be using the website to either book swimming lessons via Learn To Swim for them children, or to book more specialist classes for themselves.

Additional user groups include professional swimmers, this user groups would use Pleasant Swimming's website to take advantage of booking in advance the adult specialist swimming classes.

The final key user group of this website would be hobby swimmers, those who part time swim for fun. This user group would benefit from Pleasant Swimming's website would be to keep track of the pools opening times.

Persona

Middle aged woman (qikkwit, 2012)

Name: Mrs Jenny Jameson

Age: 43

Gender: Female

Occupation: House wife

Home city: Cardiff, Wales

Children: 3

Interests:

- Mrs Jameson has stated that in her earlier years she enjoyed swimming. However, due to having young children she was unable to continue her swimming hobby.
- She has also stated she enjoyed spending time with her 3 young children doing activities to help their development.
- She enjoys knitting.
- She enjoys listening to music

Personality:

- Friendly
- Outgoing
- Happy

Mrs Jameson said that she is a very happy person, she used to be extremely active and wishes to be more active again.

Reasons for using the website:

Mrs Jameson said she wants her kids to learn how to swim, she would want to use the website to find out special promotions and lessons that the Pleasant swimming has to offer. She would want to enrol all her children in swimming lessons and would want to take advanced swimming courses herself.

What are they looking for in the website:

Things that Mrs Jameson is looking for in the Pleasant Swimming website is a clear method to find and book lessons for her children and herself. She also wants the information of any additional promotions of special events to appear on the main page.

Personal Profile

Mrs Jenny Jameson is a 43 year old housewife, and mother with 3 young kids. She is a prospective customer of Pleasant Swimming, who would ideally take advantage of the child swimming lessons for her young children, whilst she takes the advanced swimming classes herself. While at the swimming classes she would want her children to interact with other children in their age groups to advance their social skills. She would also desire for her classes to be in groups so she can learn with other adults

Qualifications:

GCSE:

7 C—A grade GCSE certificates

A-Levels:

2 C—A grade A-Level certificates

Computer Skills:

Mrs Jameson has stated that she uses the computer for basic needs, e.g. Email and web searching. She does most of these activities on her phone.

Scenario

Mrs Jameson has been searching the internet for a swimming pool where she can take her children to begin their swimming lesson. She wants a company where both her children and herself can do swimming lessons. She has been unsuccessful with finding a swimming pool website that appears friendly and inviting, this is until she finds Pleasant Swimming's website. She is pleasantly surprised by the ease of navigation and the friendly appearance. She navigates the website to the bookings page where she books a trial swimming session for all 3 of her children, and an adults swimming session for herself.

Personality and Tone

When the key user groups use Pleasant Swimming's website they should find the experience peaceful and easy to operate as also being very child friendly. The user groups when using the website should not have to worry or think about the navigation system, but instead think about the ease of access and the fun experience that the will give. The personality and tone of Pleasant Swimming's website will need to be a very child friendly while remaining appealing to adults. To achieve this the website will use bright vivid colours to attract attention from the end user, the colours used in the website will use a blue and purple colour palette with silver accents. This colour palette keeps in line with the current trends set by successful leisure centres / swimming pools. Additionally, the website will use photography of swimming sessions with the individuals enjoying themselves in the water, also photography of the swimming centres facilities will be used to show the end user all the benefits that Pleasant Swimming has to offer.

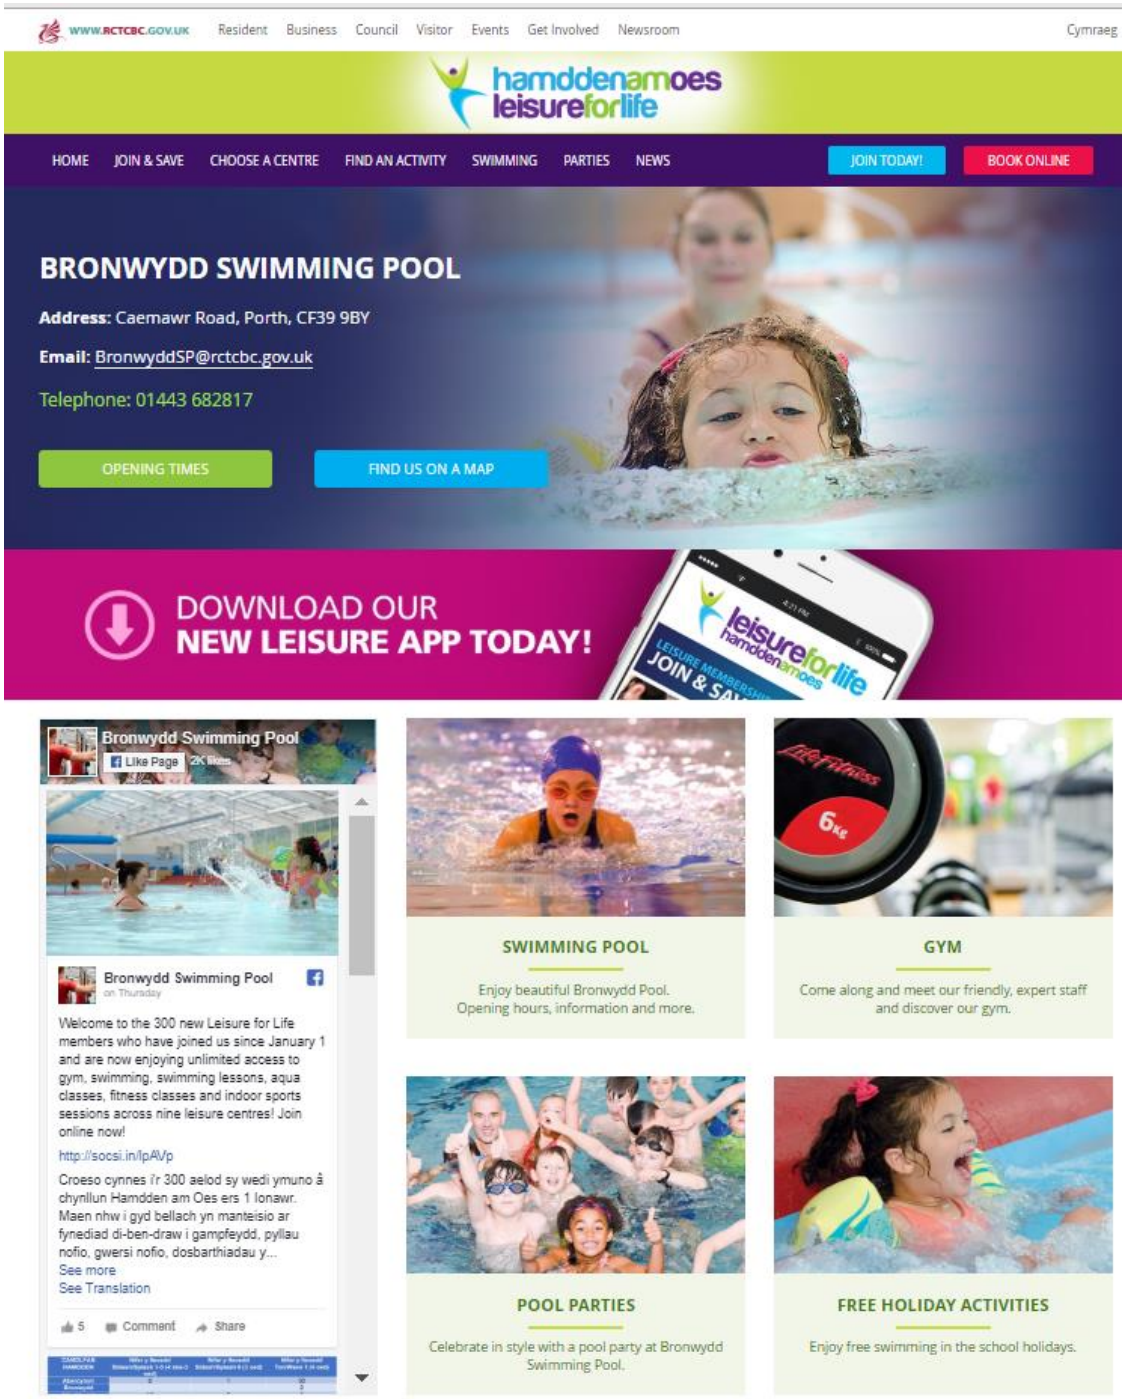
Research

The following research has been completed to gain understanding of industry wide trends for swimming pool websites.



(Rctcbc.gov.uk, 2019)

(Caerphilly Council, 2019)

(Miniswimming.co.uk, 2019)

The research done by looking at 3 successful and already established leisure centres, Bronwydd, leisure lifestyle, and miniswimming. The results yielded from the research gave a clear understanding of current trends and features used in the websites these successful businesses. These trends and features include:

- Vivid colour palette
- Social media linked in the home page
- Photography of swimming sessions
- Clear depiction of opening times
- Clear navigation systems

These features will be incorporated into Pleasant Swimming's website design, to ensure that the website is given a very modern appearance that keeps in line with current trends set by successful leisure centres.
